DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert Rodenkamper on 04/27/06.

The application has been amended as follows:

- Claims 10-11, first line: inserted -- in accordance with Claim 1 -- after "spectrometer".

Allowable Subject Matter

Claims 1-14 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1 and 12 have been allowed over the Tsunekane et al. (2002/0126724) and Ohtomo et al. (6048105) prior art because they fail, taken singly or combined, to teach the limitations as following:

Tsunekane et al. disclose in Fig. 14 all limitations of the claims except for a second detector for monitoring the wavelength of the reactivated optical signal and generating a second detection signal; a second controller coupled to the second detector which second controller adjusts both the temperature of, and the current to, the gain medium to thereby achieve a desired

emission wavelength; and means for adjusting the beam path length of the optical cavity to be in resonance with the desired emission wavelength.

Ohtomo et al. show in Fig.10 all limitations of the claims except for a second controller coupled to the second detector which second controller adjusts both the temperature of, and the current to, the gain medium to thereby achieve a desired emission wavelength; and means for adjusting the beam path length of the optical cavity to be in resonance with the desired emission wavelength.

Claims 2-11 and 13-14 have been found allowable due to their dependency on claims 1 and 12.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
